How to Register a Device

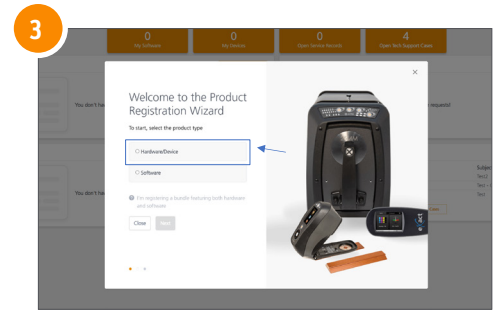

Unlock the full potential of your X-Rite device by following these simple steps to register.

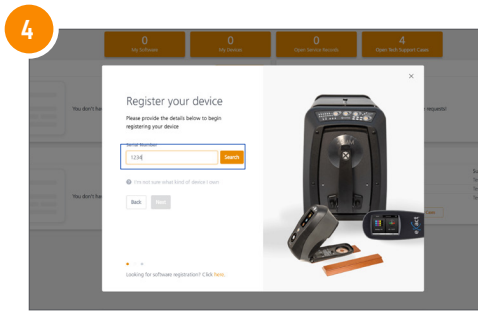

1 Login or create an account at my.xrite.com

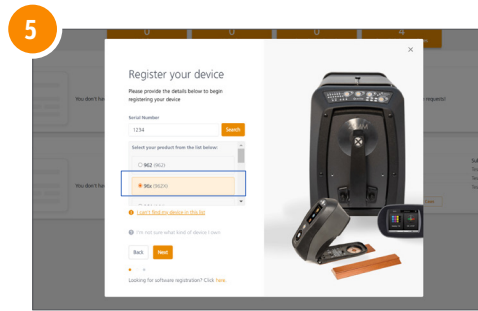

2 Select "Register New Device"

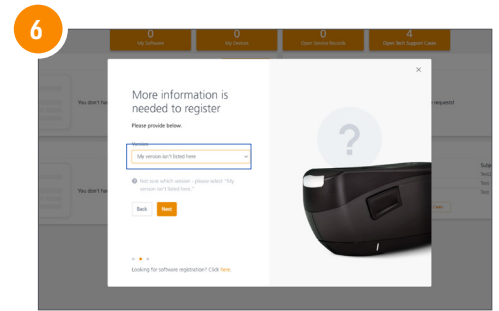

3 The registration wizard will open. Select Hardware/Device

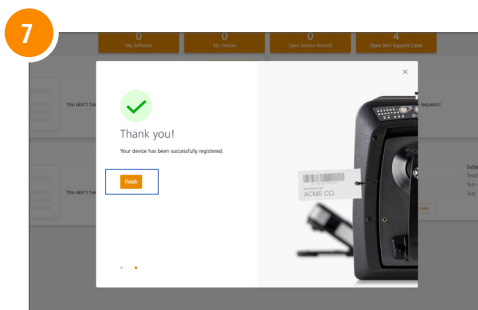

4 Enter your device serial # - this is typically located on a sticker near the aperture or at the bottom of your device. Hit "search".

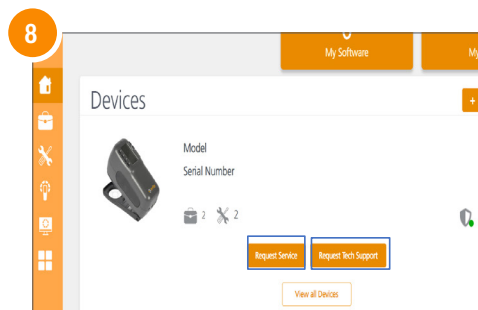

5 Select your model from a list of products. If you are unsure of your model and need our help looking this up, please select the "I can't find my device in this list" where you can provide us with some order details and our team members will be happy to assist you with that information. Hit "Next"

6 Next you will be asked to select the version of your device from a drop down. Don't know? That's okay, simply select, "my version isn't listed here" and hit "next"

7 Now, you're done! It's as simple as that. Hit "finish" and you will immediately see your device in your dashboard with all device and service history presented for you.

8 Now your device is registered and you can quickly create service and support requests tied to the device with a quick click of a few buttons.
