Guide to Upgrade from NetProfiler v3.4.9 (or Older) to NetProfiler 4 (Online):
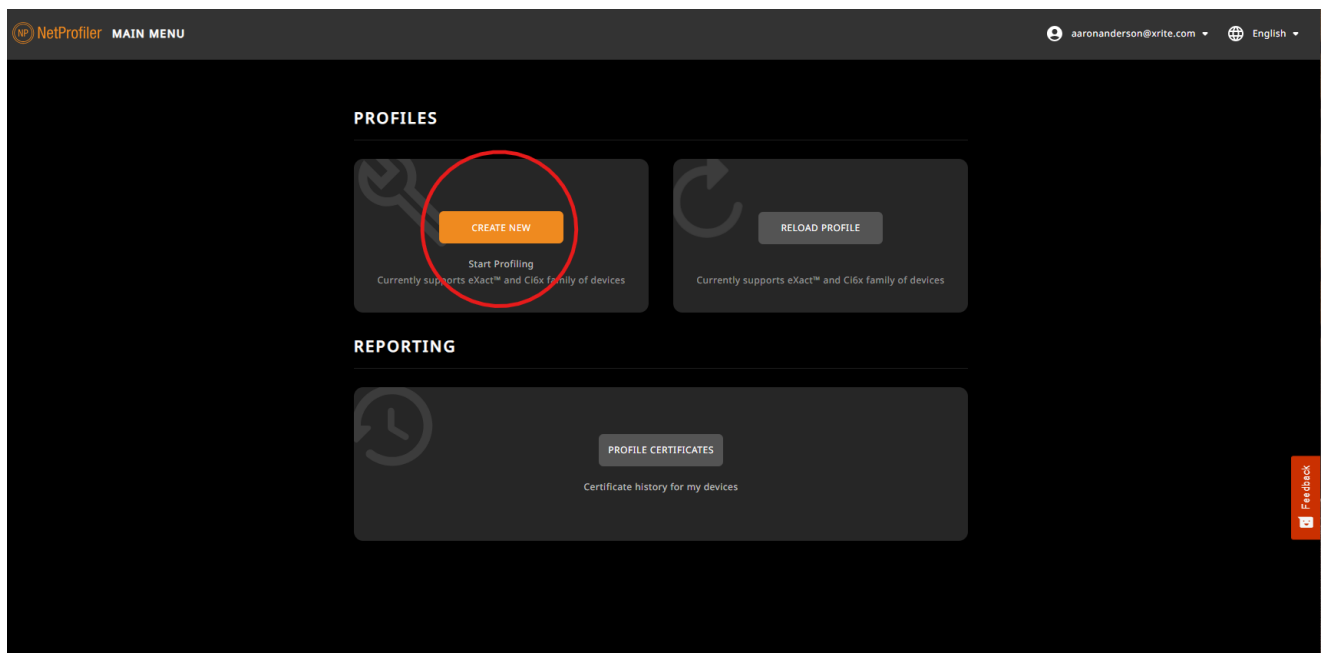

Step 1: Register for My X-Rite Account

Got to My X-Rite and register for a MyXrite account. This account is required to log in to NetProfiler versions 3.5 and newer.

Step 2: Access NetProfiler Online

Visit the X-Rite website and click on "NetProfiler Online".

Step 3: Create a New Profile

On the below screen, click "Create New".

Step 4: Download AuturaNEX Software (If Needed)

If you haven't already installed AuturaNEX, download and install it at this step. Then, launch the AuturaNEX Desktop Application and click "Reconnect" as shown on the screen to reconnect your device.
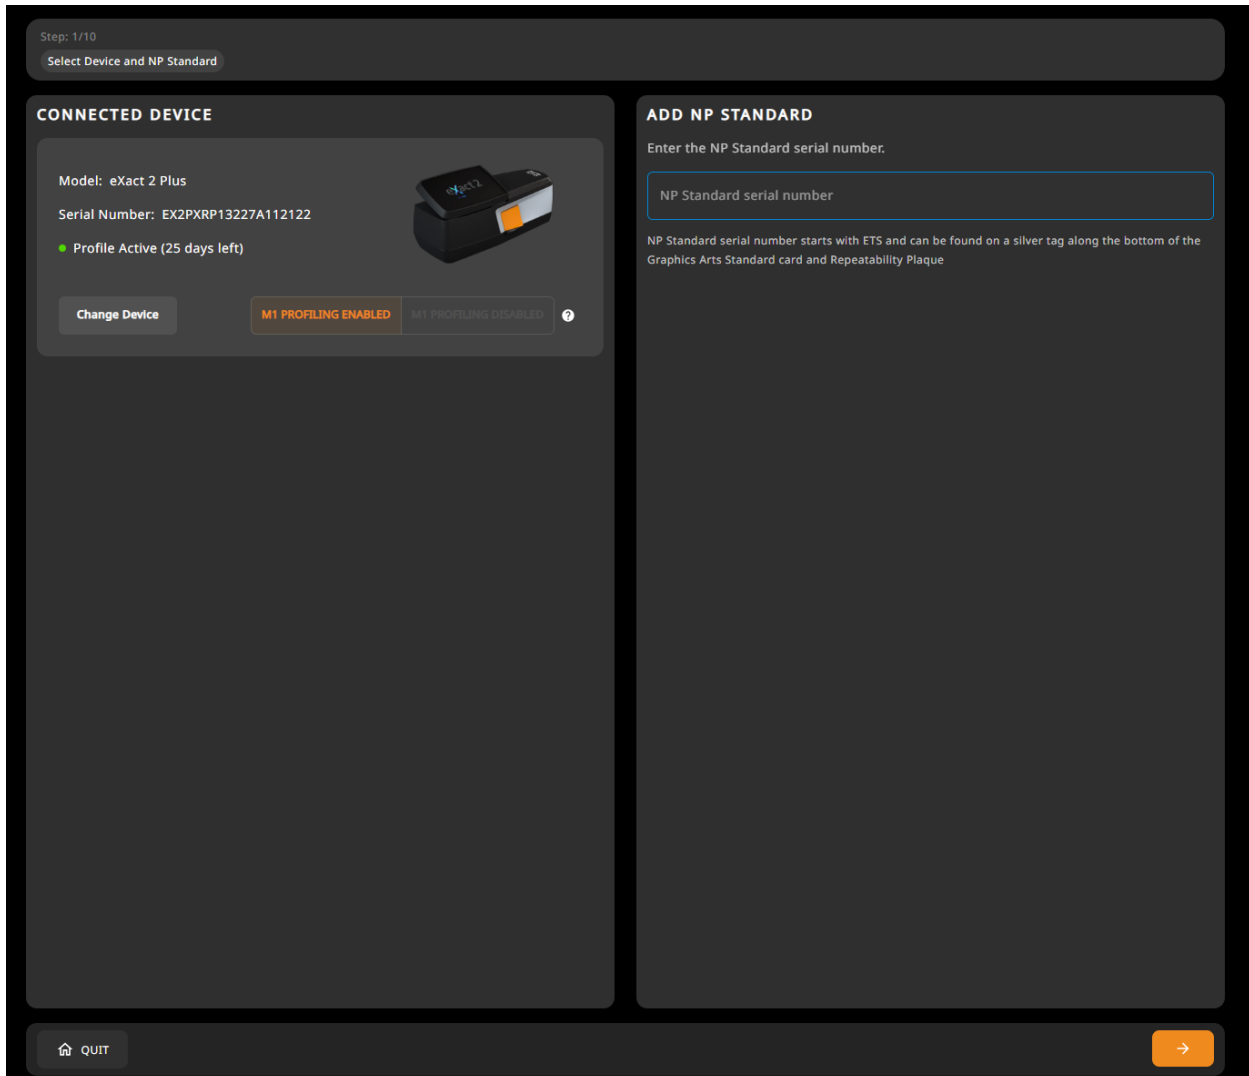

Step 5: Select Your Device

Choose your device from the list provided.

Step 6: Enter NetProfiler Standard Serial Number

Input the Serial Number and click the orange arrow button to proceed to the next step.

Step 7: Prepare for Profiling

Ensure that the NetProfiler Standards are clean and that the temperature is stable. Check both boxes to proceed to "Start Profiling."

Step 8: Complete Profiling

Follow steps 2-10 in NetProfiler 4 Online to create new profile.
